

Pre-Kindergarten Programs

The District may establish a pre-kindergarten program based on the premise that the District's teachers, support staff, and physical facilities can offer a quality of experiences that cannot be provided by area nursery schools. If it is not possible for the District to provide such a program for all four-year-old children in the District, those children in greatest need will be sought and identified.

The objectives of the program are to:

1. Identify children with incipient problems of a social, emotional, and/or physical nature, regardless of whether they are related to maturational development;
2. Provide an educational experience that will ameliorate or eliminate these problems at an early age, thereby deterring adjustment and/or learning problems from developing in subsequent years;
3. Identify children who do not have facility in the English language and provide experiences that enhance and accelerate the development of such a facility;
4. Identify children who would not otherwise attend a nursery school prior to entering public school and provide them with equal learning opportunities;
5. Provide experiences for the parents of these children through a volunteer aide program whereby they can become oriented to the instruction of the school and how their role as parents might relate to the instruction as it affects their children.
