

Community Use of School Facilities

School facilities are available to the community for education, civic, cultural, and other non-commercial uses consistent with the public interest, when such use does not interfere with the school program or school-sponsored activities. Use of school facilities for school purposes has precedence over all other uses. Persons on school premises must abide by the District's conduct rules at all times. See Facilities use agreement 4210F and 4210F -2.

Organizations granted the use of the facility shall pay fees and costs. The Superintendent shall develop procedures to manage community use of school facilities, which shall be reviewed and approved by the Board. Use of school facilities requires the building administrator's approval.

Requests for use of the school facilities must be submitted in advance of the event to the building administrator's office. The building level administration shall approve and schedule the various uses of the school facilities. A master calendar will be kept in the building office for scheduling dates to avoid conflicts during the school year.

Events which fall outside the normal use of a building or that may be in question should receive approval of the Board/Superintendent.
