

NON-SCHOOL BUILDING USE

1. There must be a school district employee, approved by the school administrator, on duty for the use of all facilities within the district.
2. With the approval of the superintendent, a portion or all of the rental fees may be waived for not-for-profit organizations whose activities promote the goals of the school district.
3. All persons and groups using or renting school premises or property shall assume responsibility for all damage that occurs while said property or premises are being used or rented. The user shall pay the costs that may be incurred by the district in making needed repairs and replacements. The user shall also indemnify and hold the Board of Trustees, school district employees, and the school district, harmless from any liability arising from any injury or property damage resulting from or in any way arising out of the use of school facilities by persons or community organizations. Unsupervised children must not be permitted in the buildings. Specific areas of the building to be used must be identified and other areas will be off limits. The group will be responsible for proper care of the building, equipment, and any other used facilities. Any damage caused by the using group to the building, facilities, or equipment will be charged to the group. All areas accessed by the group must be returned to the condition that existed when the group began the activity.
4. School activities have precedence over other groups in the scheduled use of facilities.
5. Kitchens may not be rented. Arrangements for catering may be made directly with the food service personnel.

Rental Fees/Hour
